To begin the process of honing executive-level product management skills, the Product Management Festival (PMF), an organisation dedicated to the development of product managers, and INSEAD, have partnered to develop the Product Management Executive Programme (PMEP). PMEP provides current and rising PM executives the tools, knowledge and know-how to lead effectively and to amplify their impact in the organisation.

This programme is designed to provide attendees with opportunities to deepen their understanding of leadership and to develop their capacity to exercise it effectively and responsibly, while also providing a balance of PM-focused sessions. It will be led in tandem by INSEAD faculty and product executives from leading technology companies, providing strategic insights from the field and skills that will be critical to your success. The leadership and PM content is intertwined to reflect the many demands PM executives face.

To begin the process of honing executive-level product management skills, the Product Management Festival (PMF), an organisation dedicated to the development of product managers, and INSEAD, have partnered to develop the Product Management Executive Programme (PMEP). PMEP provides current and rising PM executives the tools, knowledge and know-how to lead effectively and to amplify their impact in the organisation.

This programme is designed to provide attendees with opportunities to deepen their understanding of leadership and to develop their capacity to exercise it effectively and responsibly, while also providing a balance of PM-focused sessions. It will be led in tandem by INSEAD faculty and product executives from leading technology companies, providing strategic insights from the field and skills that will be critical to your success. The leadership and PM content is intertwined to reflect the many demands PM executives face.

**KEY BENEFITS**

- Confront, acknowledge and develop your leadership style so that you can lead yourself and your organisation through growth and change
- Explore frameworks, recognise your impact on group dynamics and design actionable plans to build, develop and retain your teams
- Learn executive-level topics from top product management executives who will help you apply what they have learned to your situation
- Enhance essential soft skills as you learn how to interact and negotiate with the board, investors and strategic partners
- Grow your network with other product executives, and gain access to leading product management experts worldwide

**Why should you attend this programme?**

As product executives advance in their careers, the type of responsibilities they face grow. Part of the programme will involve real cases from leading digital companies. Attendees will learn from the leading tech companies how they organise, lead, and run PM from an executive’s standpoint. And PM execs also have to focus more on topics such as influencing and shaping organisations, leading without authority, communicating at the board level, and more.

A standard PM education is insufficient at this point and so INSEAD and the Product Management Festival have partnered to provide the Product Management Executive Programme.
PARTICIPANT PROFILE
The programme is designed to benefit:
• Participants who have reached Chief Product Officer, Vice President of Products, Head of Products or an equivalent level of responsibility who desire further personal and career development to amplify their impact on the organisation
• Participants who are senior level product management leaders transitioning to executive product management roles.

PROGRAMME CONTENT
Through guest lecturers from leading technology companies, cases, group activities and feedback and action planning, you will have opportunities to explore how leadership works. You will learn how PM executives have maximised their impact within their own organisations and how they have led and developed a sustainable product team.

Product Leadership
Learn from those who have come before you. Product management executives at the top technology companies present on topics that are critical to your success such as:
• Scaling the PM organisation
• Managing a board and other stakeholders
• Managing a product portfolio
• Building a product strategy and managing growth
• Using OKRs and KPIs effectively
• Guiding through organisational changes such as M&A

Leadership Development
INSEAD professors use group activities, cases and live examples to help attendees personally and professionally develop through topics such as:
• Acknowledging and developing your leadership style
• Acquiring the skills to lead diverse teams
• Leading without formal authority
• Understanding and using networks
• Harnessing the power of company culture
• Honing negotiation skills
• Communicating with a board
• Recognising your impact on group dynamics

Personalised Action Plan
Programmes are not effective unless you have a way of tying them all together. Our programme includes dedicated sessions that enable you to combine all the lessons learned and synthesise them into a personalised action plan.
