Four Reasons to Choose an INSEAD Online Programme

1. Learn
   - High-impact Learning Experience
     Through outstanding design and delivery, INSEAD’s online programmes build upon our world-class faculty’s ability to convey very complex concepts in the simplest yet most comprehensible way.
     • Content designed specifically for the online format, including short high-impact videos
     • Professional, high-quality video lectures
     • Use of relevant and engaging examples and short case studies from a wide range of industries.

2. Interact
   - Multi-dimensional Interactions with Peers, Faculty & Learning Coaches
     The video lectures are complemented by a rich set of interactive elements, including short quizzes, simulated exercises, online discussions and personal reflections. Through these interactions, we build a community of faculty, learning coaches and diverse, high-quality global executives who learn together as a group - one of INSEAD’s strengths.

3. Apply
   - Real-time Application for Immediate Impact
     Action Learning Projects (ALP) are a core element of the online programmes, designed to increase business impact. The guided ‘real-world assignments’ feature of the programmes encourages participants to take newly acquired skills and apply them within the context of their actual job and organisation. The projects are closely aligned with the learning in the programme and benefit from the learning community, with feedback from the learning coach and from peer review.

4. Certification
   - Official recognition from INSEAD
     Upon successful completion of all programme activities, combined with satisfactory grades on the final assignment, participants are awarded an official Certificate of Completion from INSEAD, which they can also showcase on their LinkedIn profile.

Our online Learning platform:
Next generation engagement and impact

Easy to navigate
INSEAD online programmes leverage next-generation online learning technology. Our learning platform is intuitive, easy to use and highly interactive, empowering you to engage fully with content, with faculty and with your peers. You spend your time learning, not learning to navigate our platform.

Learn at your pace
Content is released week by week, giving participants a high degree of flexibility to learn at a rhythm that suits them and helps balance work commitments and scheduling. Learning is facilitated anytime, anywhere.

Dynamic video content
Video lectures and industry interviews are recorded at INSEAD to the highest-quality standards and with volunteer student audiences to capture all the dynamism of a live classroom experience. The content is structured into bite-sized chunks that are easy to digest between meetings, or when traveling.

Multi-dimensional interactions
Each week’s content provides a perfect blend of video lectures, quizzes, simulated exercises, discussions, personal reflections. Learners are able to interact with peers through discussion forums, study groups. They also have the opportunity to interact with faculty through live calls and just-in-time videos.

Personalised Coaching
Each participant receives one-to-one coaching from a learning coach. Learning coaches, led by INSEAD alumni, are there to guide the learning journey, reviewing new concepts, unlocking understanding, helping to set context, and acting as a critical sounding board as your participants embed ideas and focus them around critical objectives. Coaches simultaneously accelerate learning and empower participants to apply new tools and frameworks as they progress through the programme.

Action Learning Projects
Action Learning Projects (ALP) are a core element of the online programmes, designed to increase business impact. The guided ‘real-world assignments’ feature of the programmes encourages participants to take newly acquired skills and apply them within the context of their actual job and organisation. The projects are closely aligned with the learning in the programme and benefit from the learning community, with feedback from the learning coach and from peer review.

Every week, participants are challenged to:
• Reflect deeply about that week’s takeaways and how they apply to the ALP
• Integrate new terminology, tools and frameworks
• Articulate the thought processes behind each new presentation to learning coaches
• Drive momentum as the ALP takes shape and greater focus on your real-life business challenges.

“INSEAD’s online programmes have provided the flexibility to accommodate Canpotex’s international workforce and by the very nature of its programme delivery, mirror the collaborative leadership that is central to our company’s success regardless of geographical locations and time zones. Our participants can work at their own pace yet share their journeys with one another as they progress through the programme...Business Strategy and Financial Performance consistently received positive feedback from Canpotex participants. Our people enjoyed the collaboration between participants, the financial analysis and innovative approaches to quality decision-making. The information and service provided by the course manager and programme advisor was exceptional and made the enrolment and delivery seamless and easy.”

Kendra Kuse  
Vice President of People Resources at Canpotex

“INSEAD online programmes are state-of-the-art and immensely engaging programmes. Their themes are highly relevant to the corporate world and feature latest thinking in transforming organisations...These online programmes helped our executives develop leadership capabilities and generate many ideas through assignment and projects that contribute to the Bank’s growth and progress...INSEAD programmes received highest ratings from our employees considering the in-depth research that underpin these programmes, the outstanding faculty with deep corporate experience, and the professionalism of the administration of the delivery of the programmes. We have also experienced from INSEAD their keen listening and acting on our feedback and requirements.”

Tariq Faqiry  
Head of Human Resources Development at Bank Muscat
I would like to enrol multiple employees in the same program. Is this possible?
Absolutely, and we actually encourage participants to attend in teams in order to maximise the learning and impact. The participants will be able to work on the Action Learning Project as a group under the guidance of INSEAD’s learning coach, and the project can be based on company objectives. We also offer a special fee for groups of executives attending from the same organisation, so please feel free to contact us for more details.

How much time should the participants expect to dedicate to the programme every week?
The programme should take approximately 4-6 hours per week. Participants can expect to devote 1-2 hours per week watching video lectures on fundamental concepts, 1 hour per week on interacting with fellow participants in discussions or reflecting on the concepts through quizzes and reflections and 2-3 hours per week in applying the fundamental concepts in an Action Learning Projects to understand their relevance to their everyday work.

What is the weekly learning rhythm during the programme? Do the participants need to be online at specific times during the programme, or can they learn ahead of the rest of the class?
The programme is designed in a manner to encourage the whole class to learn together, moving at a certain pace from week to week, while providing enough flexibility within each week for the participants to review the content at their own convenience. While a week is open, they can login any time at their convenience and review the weekly content at their own pace, as the learning design is asynchronous.

What is the role of the Learning Coach?
At INSEAD, participants never learn alone. To bring this notion alive in the online setting, we have built a learning community comprising of the participants, the faculty and the learning coach. The learning coach plays an integral part in stimulating content discussions, encouraging collaboration between participants as well as guiding the participants closely in the design of their action-learning project.

Will they have an opportunity to interact with INSEAD Faculty?
Yes, of course. We purposefully limit class sizes to ensure ample faculty-to-participant time. At a minimum, participants can expect at least one live call with the faculty to discuss course content. In addition, the faculty would be reading their thoughts in the discussion forums in the platform from time to time and answer their questions through periodic just-in-time recorded videos. The faculty would be further assisted in these interactions by the learning coach, acting as a bridge between the participants and the faculty.

Will my participants be able to interact with other participants?
Yes, of course. The learning experience is designed to encourage interaction. Participants are able to interact with each other through discussion forums, interspersed throughout the platform. In addition, participants would have the option to work on the Action Learning Project in groups with fellow participants. They would also have the opportunity to interact with each other during the live call with faculty.

What are the learning requirements in order to successfully complete the programme?
Our online programmes, like our face-to-face programmes, follow a rigorous learning process. Participants are expected to fulfil a certain minimum criteria to earn the certificate of completion.

What do my participants receive upon completion of the programme?
Upon successfully completing all the programme requirements in time, they will receive an official Certificate of Completion from INSEAD, which they can also share with their network on LinkedIn. The top performers will receive a certificate with distinction.

How can I partner with INSEAD on a customised Online Programme?
INSEAD has a dedicated team to work with your organisation on a bespoke customised online programme. The programme is tailored to your organisation’s needs and learning objectives. It follows a rigorous design process:

- Proposal -> Need Assessment -> Programme Design -> Production -> Delivery -> Feedback & Assessment.

Please feel free to contact us for more information.
